

Cloud Dough Fun!

A soft, squishable sensory activity for curious hands

A SEE US KIDS FAMILY ACTIVITY

What is cloud dough?

Cloud dough is a soft, moldable mixture children can squeeze, pat, and shape. Its texture invites hands-on exploration and open-ended play. Children can explore at their own pace, independently when appropriate or together with someone.

Colorful Cloud Dough

WE CHOSE BLUE & PINK - PICK YOUR FAVORITES

Make it

1. Measure 2 cups cornstarch into a bowl.
2. Add 1 cup lotion. Stir, then knead until a soft dough forms.
3. Divide the dough. Choose any colors you like and knead a few drops of food coloring into each portion.

Adjust the texture: If it feels sticky, knead in a little more cornstarch. If crumbly, add a small dab of lotion.

Lotion

Grown-up help: mix, supervise, and store

An adult should mix the powder and lotion. Keep cornstarch dust away from faces. This dough is for play, not eating; supervise children who may mouth materials. Use a lotion your child tolerates.

Food coloring may stain hands or surfaces; start with just a few drops.
